- **Tools:** Salesforce (SFDC), HubSpot, Power BI, Amplitude, Google Sheets, Jira, Notion

WORK EXPERIENCE

Reframe (YC S21)

Neuroscience-based alcohol reduction app with 5M+ downloads.

Strategy & Operations Manager | Atlanta, GA

May 2025 – Present

- Scaled monthly recurring revenue from \$45K to \$150K+ in 7 months by driving GTM execution and building core operating systems across onboarding, pricing, retention, and coach performance management.
- Built AI-powered performance dashboards to track coach response times, client outcomes, and engagement metrics, automating manual reporting workflows and improving visibility into a 60+ person contractor network.
- Built and launched Melody, an AI coach powered by Gemini 3.5, providing personalized coaching and proactive outreach to 40K+ users; prototyped, tested, and iterated features within 3 weeks using user feedback and behavioral insights.
- Led product and revenue analysis using user interviews, cohort analysis, and A/B testing; synthesized insights into executive-ready materials that informed product, marketing, and growth decisions, improving profit margins from 22% to 31%.
- Established scalable business operations from the ground up: recruiting, onboarding, and payroll systems for 60+ coaches, enabling consistent service delivery as the company scaled.

CREDDnet

Platform modernizing private credit and alternative financing.

Strategy & Operations Manager | New York, NY

January 2025 – May 2025

- Redesigned the company's CRM infrastructure from scratch in Airtable and built an AI-powered dashboard using Claude Code to automate pipeline summaries, follow-ups, and reminders; reducing partner follow-up cycles from 14 days to 3 days and eliminating manual reporting overhead.
- Synthesized market research and client engagement data to inform product prioritization and business strategy, supporting investor updates and internal strategic planning.

New York University

Program Manager (Tech Platforms) | New York, NY

January 2024 – December 2024

- Led enterprise platform initiatives across 7 NYU schools, managing cross-functional stakeholders (engineering, IT, vendors, leadership) to deliver digital systems impacting 300+ faculty and 10,000+ users.
- Drove end-to-end rollout of a cloud-based Learning Management System, achieving 85%+ adoption, and built Power BI executive dashboards to bridge technical and business teams and improve delivery visibility.

Salesforce

Account Executive | Mumbai, India

October 2022 - April 2023

- Drove 120% quota attainment by managing \$8M+ enterprise pipeline across Fortune 500 accounts and leading full-cycle GTM execution for MuleSoft (SaaS) solutions.

- Led complex enterprise deal cycles from prospecting to close, engaging C-level and VP stakeholders on digital transformation initiatives, while accelerating growth through channel partner-led GTM strategies and co-sell motion.
- Partnered with solutions engineering and marketing teams to position MuleSoft within the Salesforce ecosystem, enabling multi-product adoption and account expansion, including the first MuleSoft × KPMG partnership.

Hewlett Packard Enterprise

Enterprise Sales Consultant | Bengaluru, India

July 2021- October 2022

- Managed a \$4M enterprise and SMB portfolio, owning sales strategy, solution design, pricing, and contract negotiations across hybrid cloud and infrastructure offerings.
- Drove adoption of HPE GreenLake and ProLiant Servers by aligning cloud solutions to customer goals in cost optimization and infrastructure transformation, while reducing sales cycle time by 50% through pipeline optimization and CRM-driven forecasting.
- Exceeded FY22 targets by 135%, earning top regional performance recognition while scaling partner-led revenue through enablement of 70+ channel partners.

EDUCATION

New York University | New York, USA (With Distinction)
